EVALUATE DEPLOY MANAGE SUPPORT

Readiness Review

Engagements designed to evaluate your existing workflows and identify inefficiencies.

Financial Planning

Select the best financial model from options such as leasing, DaaS and others.

Device Evaluation

Determine the most suitable hardware solutions for your project.

● DEPLOY

MBS services address unique needs for sourcing, packaging and delivery

EVALUATE DEPLOY MANAGE SUPPORT

Asset Tagging

We can tag your devices via aluminum foil, tamper-proof or laser etching tagging methods.

Setup Guides

Printed and/or digital setup guides can be included with your devices.

Private Stores & Catalogs

Private Online Catalogs allow your employees order their devices from any location.

● MANAGE

Zero-Touch provisioning and management solutions from Apple and third-party vendors

EVALUATE DEPLOY MANAGE SUPPORT

Apple Business Manager

ABM is a web portal for IT administrators to deploy Apple devices from one place.

Jamf

Jamf provides extensive MDM management solutions for businesses and government.

Splunk

In combination with Jamf, Splunk solutions facilitates cloud-based compliance incident reporting.

● SUPPORT

We offer tailored hardware, software and remote support programs

EVALUATE DEPLOY MANAGE SUPPORT

MBS Support

Flexible one-stop integrated hardware and software support platform.

Repair Service

Our in-house team of Apple Certified Technicians will manage all your repair requests.

Spare Pool

Get replacement devices on their way even before you send the defective unit out.

● COMPLIANCE

MBS Integration Services achieve regulatory compliance requirements

Exceed Regulatory Requirements

By Leveraging Jamf, Splunk and CmdReporter, your organization can provide audit reports that exceed CIS, NIST 800-53, NIST 800-171, and the DISA STIG reporting baseline. Contact us for more information.
